DAY ONE
Iceland is a country of sharp contrasts — a place where fire and ice co-exist. Where dark winters are offset by the summer’s midnight sun. Join Lamers Tour & Travel as we spend our first day taking to the skies and flying overnight into Reykjavik.

DAY TWO
Upon arrival at the Reykjavik airport, we meet our tour guide for the duration of the tour. We’ll enjoy our two course breakfast before beginning our tour of Reykjavik. Highlights include spectacular views from the Perlan building and Hofdi House, location of the famous summit between President Reagan and Soviet Union General Secretary Mikhail Gorbachev in 1986.

DAY THREE
Today we head outside Reykjavik for a full day tour of the Golden Circle, Iceland’s top destination for visitors. The Golden Circle is a route starting near Reykjavik and circling through the center of Iceland. We’ll see wonderful examples of Iceland’s varied geology. We’ll marvel at the Gullfoss waterfall, Thingvellir National Park, as well as the geothermally active Haukdalur Valley.

DAY FOUR
This morning we’ll start our day with a whale watching cruise. Be sure to keep your camera close by for any sightings of these magnificent creatures. Afterwards, the afternoon is free for you to explore Reykjavik on your own.

DAY FIVE
Today we tour Iceland’s beautiful southern coast. We’ll stop along the way at local points of interest — discover the black sands of Reynisfjara Beach on Dyrhólaey Cape. Reynisfjara is a black pebble beach and features an amazing cliff of regular basalt columns resembling a rocky step pyramid, which is called Gardar. Out in the sea are the spectacularly shaped basalt sea stacks Reynisdrangar. The area is rich birdlife, including puffins, fulmars and guillemots. Be amazed by the majesty of Skógafoss Waterfall. We will also visit Skógar Folk Museum to see how the Icelandic people used to live.
**DAY SIX**  
Our final day will be spent exploring the picturesque Reykjanes Peninsula. We’ll see Bessatadir, home to Iceland’s President and visit the Viking Ship Museum. This part of Iceland is especially known for its geothermal features, so we’ll travel to Lake Kleifarvatn to see the hot springs and mud pots. Then we’ll head to the Blue Lagoon Geothermal Spa for a soak in the naturally warm waters. Relax in a cozy environment and find how the senses awake. Find additional peace of mind knowing that your spa experience based on nature-friendly energy and methods.

**DAY SEVEN**  
Today we have some leisure time in the morning before we board our flights to return back home. We will have time to reflect on the natural beauty we’ve witnessed here in Iceland.
